|------------------|---|-------------------------------|--|---------------------------|--|-------------------------------|
| Undo, Save, Exit | | Restore killed text “Yanking” | | LaTeX | | |
| C-u n | Repeat <comand> n times. | C-y | Restore last killed text. | C-c C-j | Insert a new item in a list. | |
| C-g | No do last command. | M-y | Restore previously killed text. | C-c : | Comment out region. | |
| C-x C-e | Edit. | C-/, C-x u, C-_ | Undo last command. | C-c % | Cooment out paragraph. | |
| C-x C-s | Save bufer to a file. | C-<SPC> | Mark selection. | C-c TAB | M-x tex-bibtex-file. | |
| C-x C-w | Save to specified file. | Files & Buffers | | C-c C-a | Compile and view pdf. | |
| C-c d | Delete trailing whitespace. | C-x C-f: | Find a file. | C-c C-p C-d | Preview latex equation. | |
| s-n | awesome-tab select visible tabs | C-x C-b: | List buffers. | C-c C-p C-p | Undue preview of equation. | |
| C-x / g n | google-this, no prompt. | C-x b <BufferName>: | Visit buffer. | C-c = | Return Table of Contents. | |
| M-; | comment or uncomment lines. | C-x s | Save some buffers. | C-c w | word count. | |
| M-i | Pop-up menu with buffer index. | C-x C-c | Exit emacs. | C-c u | word count in multi-part document total. | |
| | | C-x | Suspend emacs | C-c v | word count in multi-part document section. | |
| | | | return with %emacs or 'fg' | M-= | Return No. words in region. | |
| | | | | M-x tex-validate-region | Check for syntax errors. | |
| | | | | | | |
| Navigation | | | | | | |
| C-v | Go to next page. | Search | | Help | | |
| M-v | Go to previous page. | C-s | Forward search. | C-h c | Basic help command. | |
| C-l | Move the screen around the cursor's line. (once -> center, twice -> top, three times -> bottom). | C-r | Backward search. Next: repeat C-s or C-r. | C-h C | Help on interactive functions. | |
| | | | | C-h k | Explain entered keybinding. | |
| C-n | Next line. | Vertico | | C-h f | dostring for a function. | |
| C-p | Previous line. | C-j | vertico next | C-h F | Manual entry for a function. | |
| C-b | Previous character (Backward). | C-k | vertico previous. | C-h i | Read included manuals. | |
| C-f | Next character (Forward). | M-h | vertico directory up. | C-h a | Orderless search for an interactive command. | |
| C-a | Beginning of line. | | | M-x apropos | Search all functions, variables, faces. | |
| C-e | End of line. | Org-node | | M-x apropos-documentation | Search doc strings. | |
| M-f | Forward a word. | M-o n f | org-node-first | M-x apropos-variables | Search for variables. | |
| M-b | Backward a word. | M-o n i | org-node-insert- | M-x apropos-value | Find variables by their value. | |
| M-a | Back to the beginning of the sentence. | M-o n <f1> | see all commands | M-x apropos-library | Show all symbols in a package. | |
| M-e | Forward to the end of the sentence. | M-o n b | org-node-context-dwin | | Tree-sitter | |
| M->: | Move to End of file. | M-o n g | org-node-grep | | C-c o o | Combobulate with tree-sitter. |
| M-<: | Move to the beginning of the file. | M-o n d | org-node-insert-info-related | Cider | | |
| | | M-o n n | org-node-modify-entry | C-h f RET | Clerk | |
| | | M-o n w | org-node-reble | cider-repl-mode | M-RET | clerk show. |
